

**ASSEMBLY BILL**

**No. 109**

---

**Introduced by Assembly Member Nunez**

January 5, 2007

---

An act to add Section 38599.5 to the Health and Safety Code, relating to air pollution.

LEGISLATIVE COUNSEL'S DIGEST

AB 109, as introduced, Nunez. California Global Warming Solutions Act of 2006: annual report.

Existing law imposes various limitations on emissions of air contaminants for the control of air pollution from vehicular and nonvehicular sources. Existing law designates the State Air Resources Board as the state agency with the primary responsibility for the control of vehicular air pollution, and air pollution control districts and air quality management districts with the primary responsibility for the control of air pollution from all sources other than vehicular sources. Existing law, the California Global Warming Solutions Act of 2006, designates the state board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases that cause global warming in order to reduce emissions of greenhouse gases. The act requires the state board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions levels in 1990 to be achieved by 2020, as specified, and requires the state board to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions, as specified.

This bill would require the state board to report to the Legislature annually on the status and progress of implementing the act.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. Section 38599.5 is added to the Health and Safety
- 2 Code, to read:
- 3 38599.5. On or before January 1, 2008, and annually thereafter,
- 4 the state board shall report to the Legislature on the status and
- 5 progress of implementing the provisions of this division.
